## DINOSAUR EXPERT!

Loads of dinosaur fossils have been discovered in Mongolia and lots of palaeontologists are still exploring the country. A palaeontologist is a dinosaur expert- would you like to be one too? Try to match these Mongolian dinosaurs to their names and descriptions.

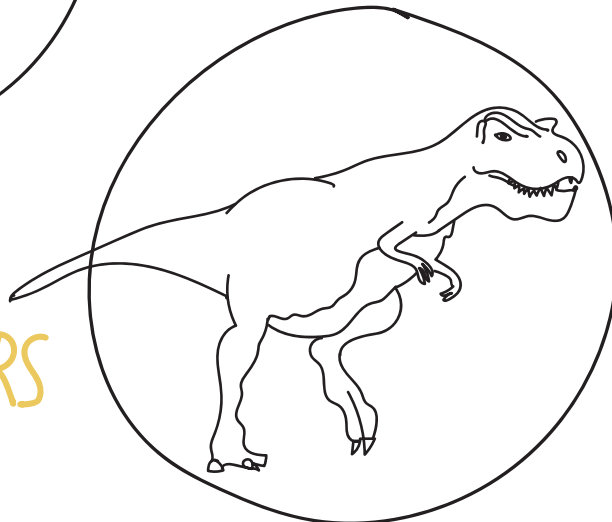

### TARBOSAURUS

A huge dinosaur which was related to the T-Rex!

### THERIZINOSAURS

She had GIANT claws (and no nail scissors!)

### OVIRAPTOR

This guy looks a bit like a bird and was discovered on a nest of eggs!
